

Children's National®

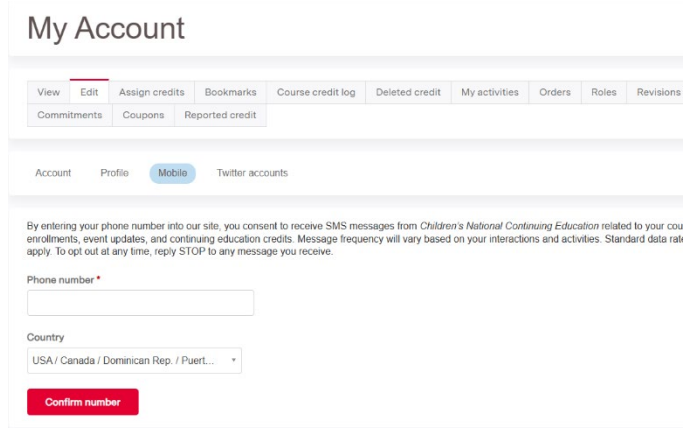

Creating an Account for Children's National Continuing Education

Start at **CE.childrensnational.org**. From the Login tab at the top right of the screen, select the option to log in with SSO if you have a Children's National email, or create a visitor account.

From the My Account section, **edit your profile with your profession**. This will ensure the system provides you the correct CEs instead of a participation credit.

Ensure you enter your **mobile number** when prompted. When you text the completion code at the end of your event, the system will recognize the mobile number you are texting from and mark your attendance for that event to your profile.

For more information or assistance, please contact CE@childrensnational.org.
